**Wine Maker**- Tim Smith of Rocland Estate Wines

### Reviews

“Cool this, unscrew, pour your glass and ponder while the bottle breathes for an hour or two in the fridge. Go again, and you'll begin to realise the quiet force & huge cellaring potential of this mighty nesting from the Valkyrie uplands atop Flaxman's Gully. For this is Valykrie wine: syrupy, dry, austere stone & muscle with Tim Smith's sensitive wine-making ensuring decades of safe maturation. **94+ points** Philip White - The Independent Feb 2007

4.5 / 5 James Halliday Wine Companion 2008

*Bloody corks.  
i'm using screwcap from now on*

Outbacchus is a new venture comprising a collective of small Australian artisan winemakers. The focus is on extreme high quality, purity and exclusivity at all stages.

All wines are hand-made in strictly limited quantities and all are independently assessed by the leading wine reviewers in Australia before being selected for the list. The amounts are very limited as the whole operation is focused primarily on quality as opposed to quantity.

All of the wines selected are made from single vineyard fruit using organic or bio-dynamic methods with minimal intervention at all stages of production.
